

INTER-OFFICE CORRESPONDENCE

Niagara Falls

TO (LOCATION) New York

FROM C.L. Heath

DATE 3-14-72

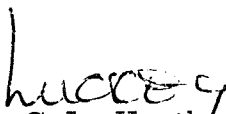

ATTENTION J.P. Madden

SUBJECT AMAX
ZIRCONIUM TETRACHLORIDECOPY TO A. Blackwell
E.S. Hays✓

Joe:

Confirming our discussion this morning, Amax has expressed an interest in meeting in New York to discuss production problems which they feel we should be concerned about. Jim Foreman will call me on Monday, March 20, 1972 to confirm the best time. I told him that the morning of March 24th would be best for us.

This afternoon Foreman called again, to alert us to the production problem they are having with uranium. We expect to have more information on that topic very soon.

C.L. Heath
